UNDER THE UNITED STATES EMPLOYMENT SERVICE'S JOB OPPORTUNITIES INFORMATION PROGRAM, STATE EMPLOYMENT SERVICE AGENCIES HAVE SURVEYED AND REPORTED ON JOB OPPORTUNITIES AND OTHER MANPOWER INFORMATION FOR THEIR AREAS. THIS DIRECTORY LISTS TWO PRINCIPAL TYPES OF STUDIES DEVELOPED AS A PART OF THIS PROGRAM--OCCUPATIONAL GUIDES AND AREA SKILL SURVEYS. BOTH PROVIDE INFORMATION FOR DESIGNING TRAINING PROGRAMS, FOR COUNSELING IN LOCAL EMPLOYMENT SERVICE OFFICES AND SCHOOLS, AND FOR OFFERING INDIVIDUAL JOBSEEKERS AND VOCATIONAL COUNSELORS CONCRETE INFORMATION ON JOB OPPORTUNITIES IN SPECIFIC OCCUPATIONS OR GROUPS OF OCCUPATIONS. OCCUPATIONAL GUIDES PROVIDE A CONCISE SUMMARY OF JOB DUTIES, CHARACTERISTICS, AND EMPLOYMENT PROSPECTS FOR SINGLE AND GROUPED OCCUPATIONS IN A PARTICULAR AREA OR STATE. AREA SKILL SURVEYS RELATE COMMUNITY MANPOWER RESOURCES TO FUTURE OCCUPATIONAL REQUIREMENTS--GENERALLY 2 TO 5 YEARS AHEAD. ABOUT 140 OF THESE SURVEYS ARE AVAILABLE AND 44 ARE BEING DEVELOPED. THE DIRECTORY LISTS OCCUPATIONAL GUIDES BY OCCUPATIONAL GROUP, STATE, AND OVER 750 INDIVIDUAL JOB TITLES. OCCUPATIONAL GUIDANCE MATERIALS ARE LISTED FOR SELECTED INDUSTRIES, OCCUPATIONAL FIELDS, AND SPECIAL WORKER GROUPS. AREA SKILL SURVEYS ARE LISTED BY STATE AND LOCALITY. DATES OF PUBLICATIONS RANGE FROM 1954 TO 1965 WITH MOST HAVING BEEN PUBLISHED SINCE 1960. (ET)

Guide to Local Occupational Information

This publication replaces the 1962 edition of the Guide to Local Occupational Information prepared by the United States Employment Service to provide State employment services and other users of occupational information with a ready reference to local occupational guides and area skill surveys. The booklet contains a listing of local occupational reports developed by State agencies under the United States Employment Service's Job Opportunities Information Program.

Preface

Recent manpower legislation has emphasized both the necessity for meaningful information on the availability of workers to meet employer requirements and the need to relate training programs to employment opportunities. This publication is a directory of selected Employment Service studies intended to provide current local occupational information for use in designing training programs, for counseling in local public employment offices and schools, and to offer individual jobseekers and vocational counselors concrete information on job opportunities in specific occupations or groups of occupations. Under the United States Employment Service's Job Opportunities Information Program established ten years ago, affiliated State employment security agencies have conducted surveys and prepared periodic reports on job opportunities and other occupational manpower information. Included in this publication are two principal types of local occupational information developed and expanded as a part of this program--occupational guides and area skill surveys.

Occupational Guides, cross-indexed by occupation and area in this publication, are prepared by State employment services and provide a concise summary of the job duties and employment prospects for a single occupation or group of occupations in a particular area or State. These Job Guides also contain information on the characteristics of the occupation, training and experience requirements, local training facilities, methods of entry, and promotional opportunities as well as information on wages and working conditions for the job. Of special interest to those concerned with job market and general occupational information on entry jobs are the Job Guides covering selected occupational fields or special worker groups. Eighteen of these Job Guides are addressed to young workers or high school graduates.

Area Skill Surveys are designed to provide comprehensive information of current employment and future labor requirements in individual labor areas. These studies relate community manpower resources to anticipated long-term occupational requirements, generally two to five years ahead. Almost 140 such surveys are currently available and an additional 44 are in progress or in the planning stage.

In Part I, the guides are listed by occupational group and by occupation within the occupational groups.

Part II contains a listing, by State, of occupational guides.

Part III contains a listing, by State, of occupational guidance publications covering selected industries, occupational fields, or special worker groups.

Part IV contains a listing, by State and locality, of area skill surveys already published and those reported planned or in process.

In Part V the occupational guides are indexed by job title.

Further information regarding local occupational guides, skill surveys, and Job Guides for special worker groups listed in this publication may be obtained by writing to the appropriate State agencies at the addresses indicated on the inside back cover of this publication.
